

## North Pulaski Farms LLC CSA Frequently Asked Questions

**Will everything on the list be in the crates each week?** No, we will fill the crates with what is in season and ripe. The start of the season will have our greens, lettuce, strawberries and other early crops. As the season progresses Tomatoes, Peppers, Cucumbers followed by Okra, Cantaloupe, Watermelons, Blackberries and other summer crops.

**How much food will be in the crates?** Our plan is for full shares to have at least \$50 worth of food, (enough to feed 4-6 people for a week) and half shares to have at least \$25 worth of food (enough for 2-3 people for a week).

**When will the CSA start?** Depending on the weather we plan on starting May 4<sup>th</sup> 2016. This could change if we have either a cold or warm spring. Shareholders will be notified in April what the official start date will be.

**What if I can't pick up my share?** You can have someone else pick up your share if you let us know who. Additionally since we have 4 distributions per week, with advance notice we can switch your pickup to another date.
